## A TRUE HOME FROM HOME

### Welcome

**Tŷ Hafod Care Home is beautifully set in the rural surroundings of Capel Llanilltern near Cardiff, easily accessible by public transport and just a short drive from the motorway.**

Our purpose-built home features 27 resident rooms, offering a combination of residential living, nursing care for those with more complex medical needs and specialist support for residents with neurological conditions.

Our private garden is a quiet haven to pass the time outdoors in

all weather, spotting wildlife or simply relaxing on the patio. Our varied activities and entertainment programme focuses on relaxation and recreation, as well as the physical and mental benefits of joining in the fun. Family and friends are welcome and encouraged to visit whenever possible.

***“The service and care given in this home by every member of staff, both day and night, is quite incredible.”***

*Quote from Resident*

**Our focus is on providing the care, facilities and opportunities for our residents to enjoy living their life to the fullest.**

All rooms are en-suite with the option of both single and shared rooms. We will always try to accommodate personal belongings and encourage residents to make their rooms their own. Our comfortable lounge area offers a relaxing space to socialise, with quiet space available for reading or to spend private time with visitors.

We strive to meet the needs of our residents every day, and always in a way that creates a positive, welcoming environment that truly makes the most of every moment.
